

Comparison of proposed Coxheath Copper mine vs.
Operational copper mine in Canada
Proximity and Size

Yellow area: Approx. 1000 acres or 4 square km (CBRM land)

Orange area: Approx. 7400 acres or 30 square km (Nova Copper Exploration)

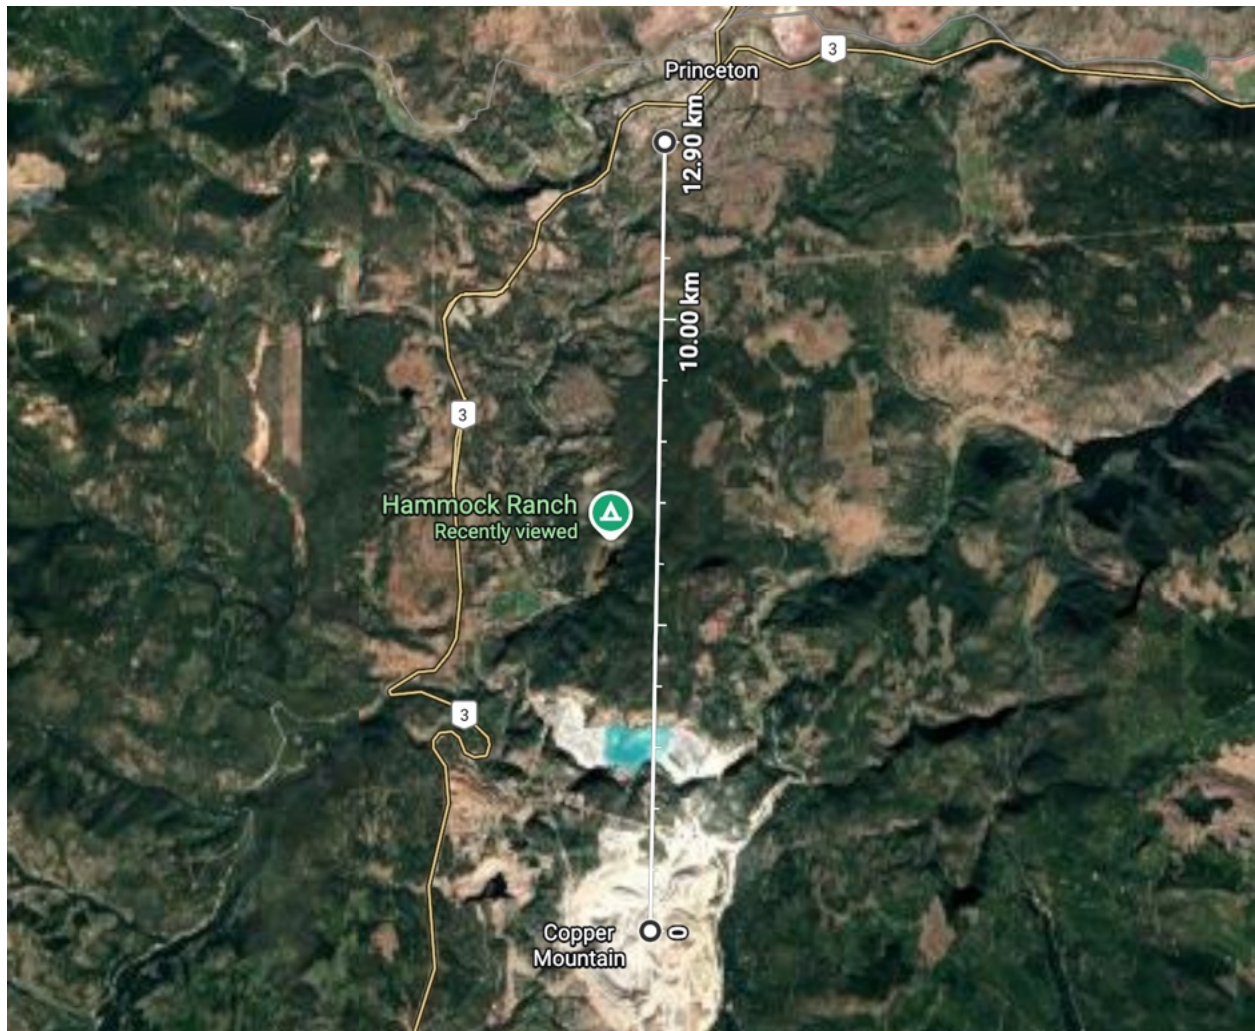

Nearest housing/community ≤1 km

Copper Mountain Mine (Hudbay Minerals), BC

Approx. 72 square km or 18000 acres

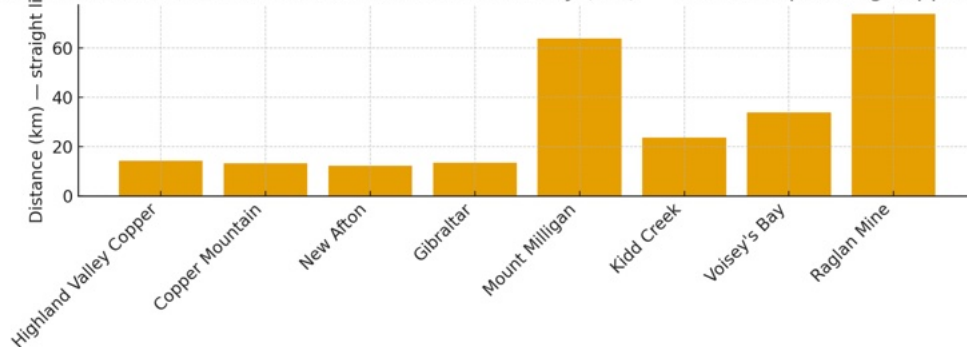

Nearest community/housing at least 10km

Data:

Straight-line distance from mine site to nearest community (km) — selected operating copper mines, Canada

Mine	Nearest_community	Distance_km_crowflies	Area_ha	Area_km2	Area_acres
Highland Valley Copper	Logan Lake	14.3	6900	69	17050.3
Copper Mountain	Princeton	13.3	7285	72.85	18001.6
New Afton	Kamloops	12.4	17058	170.58	42151.2
Gibraltar	McLeese Lake	13.5	11300	113	27922.9
Mount Milligan	Mackenzie	63.8			
Kidd Creek	Timmins	23.8			
Voisey's Bay	Nain	33.9			
Raglan Mine	Deception Bay	73.9			

Mine coordinates & descriptions

Mine site area / tenure / disturbed footprint

- **Highland Valley Copper** — Teck: HVC2040 Project Description (disturbed area ~6,900 ha).
- **Copper Mountain** — BC Gov project docs / company filings (~7,285 ha / ~18,000 acres).
- **New Afton** — Technical reports (mining lease + claims ~17,058 ha).
- **Gibraltar** — Taseko SEC filing / technical report (property ~113 km²).
- **Mount Milligan** — Operator / technical reports (distances to Fort St. James & Mackenzie, no single consolidated “site area”).
- **Kidd Creek** — Glencore operational description, Wikipedia (underground mine ~24 km N of Timmins).
- **Voisey’s Bay** — Vale / project descriptions (nearest Nain ~32–35 km).
- **Raglan** — Glencore / NRCan profiles (remote site, no single footprint reported).
